EVALUATION CRITERIA

A. Product Reliability

1. Vendor / Product track record

ASUS is a proven hardware vendor that has supplies laptops/tablets to schools. The C202 model is made specifically for schools and students.

2. Vendor support required

None

3. Ease of use

Chrome devices are easy to use and to manage through the Google Management console. Each user and device has their own policies that load when a user logs into the Chrome device.

4. Support required by RIC / school district

Less than standard laptops/desktops

5. Potential to become "White Elephant"

ASUS is a proven vendor and the chance of it becoming a "White Elephant" should not happen

6. Training requirements

Nothing more than any other Chrome device

B. Product-Price / Acquisition

1. Cost effectiveness

Around \$200 per device

2. Acquire via NYS Contract or local bid

Can be purchased through NYS contracts or other contracts if needed.

3. Cost of operation and support

Management of devices is easier than Windows laptops.

4. Do any legal or contractual issues exist

None

C. Product-Relationship to Other Standards

1. Compatibility to existing Standards

Other chromebooks are currently on the Standards list, but these are made with students and schools in mind, sturdier and rugged for everyday use Also modular with 4 replaceable parts.

2. What other options are available

2 and 4 GB RAM along with 16 and 32 GB HD models available.

3. Relationship to previous research and changes since that time

D.

BOCES-Service Needs

1. Define and explain the current need

2. What existing CoSer and RIC Service does it fall under

3. What is the scope and size of the school population to be served

4. Instructional and/or administrative goal supported

5. Results of survey determining school district interest in using this product
